MUG+

调羹背面标有水位刻度参考线，以使用户泡出浓淡适宜的饮品。
There is scale at the back of spoon handle so that customer could make appropriate taste drink according to it.

MUG+通过设计巧妙的将磁铁固定在杯子的把手内，调羹搅拌完之后，就会自动被吸附在把手附近。这样，调羹在饮用时能固定在杯内，而不需要取出放置，也不影响使用。

Mugplus has a small magnet in its handle so that the spoon will be absorbed nearby the handle automatically after stirring. Thus, The spoon will be fixed on the mug, so you don't need to take it out and it will not bother you to enjoy the drinks.
