Size bowl

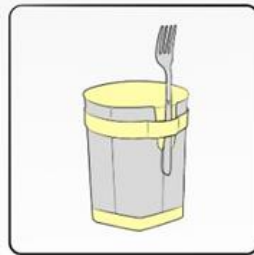

Nowadays, many people eat instant noodles. But the instant noodle packaging design also exist some problems, My design reduced the instant noodles box volume, and easy to transport and carry, the structure in the food bowl start does not lose the comfort, cook fork can fasten the lid to ensure the taste of the food is the best, but also to ensure the health of the fork no longer leave.

How to use

Tore into the relish and boiled water.

Before hot bubble noodles, the fork can be inverted in then tank lid and don't live, prevent hand fork contact or lid.

When using the instant noodles in the packing box can give a person more comfortable way to eating.

Problem

For a long time and unhygienic

For a short time and clean

Size comparison

Small instant noodle boxes are easier to carry. Compared with normal instant noodles packing, it is combined with instant noodles than normal capacity is small, open is bigger than the normal capacity.
